Alexandria, VA 22313-1450

Sir:

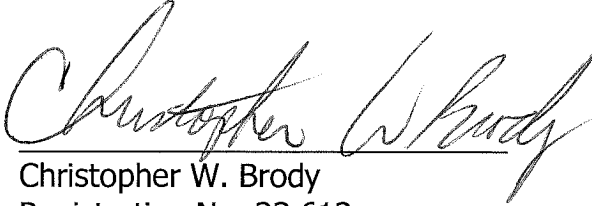

Further to Applicant's response to the Office Action of May 11, 2010, which was filed on August 11, 2010, Applicant wishes to clarify the response. More particularly, in the last paragraph on page 11 of the response, the following was stated. "Moreover, Sippel does teach that any polymer or any kerosene is suitable for the incendiary composition of Sippel." This sentence should have read "Moreover, Sippel does not teach that any polymer or any kerosene is suitable for the incendiary composition of Sippel." (emphasis added). It is clear from the overall response that Applicant was not admitting to a teaching of Sippel as stated in the August 11, 2010 response and the proper description of Applicant's view of Sippel is contained in this Supplemental Response. Entry is respectfully requested.

Applicant submits that no fee is necessary in conjunction with this filing.
